

## Color a Plate!

Archaeologists have found very few plates at Jamestown. Only wealthy settlers owned plates and others used wooden bowls instead. This plate was likely hung up for decoration rather than used for eating. Archaeologists found many of its pieces and mended them together. Finish the plate with your own design!

Once you have finished coloring your artifact have an adult show you what it looks like in real life by visiting: <https://historicjamestowne.org/jr-kids-at-home> #colorourcollections #JRKids
