

Color an Archaeologist!

Archaeologists use both historical documents and excavation (the scientific removal of soil and artifacts) to understand how people live in the past. They use several different tools to excavate a site. You might recognize many of them! As you color the archaeologist excavating at Jamestown, can you find her trowel, dustpan, soil bucket, hose, and sandbags?

Once you have finished coloring your archaeologist have an adult show you what she looks like in real life by visiting: <https://historicjamestowne.org/jr-kids-at-home> #colorourcollections #JRKids
